Stress

Grades

To bribe or not to bribe

Support and recognition

GOOD STUDY HABITS

Set aside a **regular time and place** to study.

Concentrate! Cut out distractions. Take a short break now and then.

In math and science the first step is to **understand the problem**. What is given? What is wanted?

While reading textbooks, look for the **main thoughts** in each paragraph and chapter.

Get additional information from outside sources - other books, magazines, people, etc.

Rewrite the important ideas in **your own words**. Remember them.

Important areas

Getting extra help

School

Community

Two way communication

Parent and School

Parent and Parent

Parent and Student

Student and School

Balance responsibility
